AND INNOVATION PROGRAMME UNDER GRANT
AGREEMENT N. 772705

MS16: An interest group of EU regions settled

Document Summary

Deliverable Title: **An interest group of EU regions settled**

Version: 1

Deliverable Lead: Province of South-Holland

Related Work package: 6

Author(s): **Province of South-Holland**

Contributor(s): Marga Vintges and José Vogelezang

Communication level:

- **CO Confidential, only for members of the consortium (including the Commission Services)**

Project Number: 7727053

Grant Agreement Number: **7727053**

Programme: **NEFERTITI**

Start date of Project: **January, 1, 2018**

Duration: **4 years**

Project coordinator: **Adrien Guichaoua**

Abstract

NEFERTITI Programme promotes the creation of interactive thematic networks related to the agriculture sector to promote knowledge, learning and the adoption of innovative techniques through the exchange of information between different actors and live demonstrations..

NEFERTITI

**Networking European Farms to Enhance Cross Fertilisation and Innovation Uptake
through Demonstration**

An interest group of EU regions settled

Means of verification

Means of verification

An interest group of EU regions settled is a list of EU regions that have stated that they might be interested to join the NEFERTITI network. The regions confirm their interest in a declaration of membership. In this declaration they can state if they want to be an observer region or a participating region. An observer region will be regularly informed about the project events, activities and outcomes. A participating region states to be interested in having a pilot- or demofarm in their own region or already have a demofarm and want to connect this to the NEFERTITI project. These regions will be actively involved in activities of the NEFERTITI project. Regions can always switch between being an observer region or participating regions. The participation of regions in the NEFERTITI project is on a voluntary basis and involves no financial commitment or financial benefits. The list of EU regions interested in the NEFERTITI project gives us a basis to set up a solid network of EU regions. We make use of the ERIAFF network, the network of Rural Development Programmes and the NEFERTITI network to approach EU regions.
