AND INNOVATION PROGRAMME UNDER GRANT  
AGREEMENT N. 772705

# **MS5.1: First selection of monitoring tools for farm demonstration in cooperation with RUR 11 projects.**

## Document Summary

Milestone Title: First selection of monitoring tools for farm demonstration in cooperation with RUR 11 projects

Version: 1

Milestone Lead: WR, Herman Schoorlemmer

Related Work package: 5

Author(s): Boelie Elzen, Anne-Charlotte Dockes, Cynthia Giagnocavo, Fleur Marchand, Laure Triste and Herman Schoorlemmer

Contributor(s): xxx

Communication level:

- **CO Confidential, only for members of the consortium (including the Commission Services)**

Project Number: 7727053

Grant Agreement Number: **7727053**

Programme: **NEFERTITI**

Start date of Project: **January, 1, 2018**

Duration: **4 years**

Project coordinator: **Adrien Guichaoua**

## Abstract

*NEFERTITI Programme promotes the creation of interactive thematic networks related to the agriculture sector to promote knowledge, learning and the adoption of innovative techniques through the exchange of information between different actors and live demonstrations..*

## Means of verification

WP5 developed a M&E manual, 3 monitoring tools and a M&E Journal. They are presented in the figure below. The development has been based on experiences in RUR 11 projects Plaid and Farm demo. Some of the authors/developers of the tools do also participate in these two projects.

Objectives of the tools are:

- the manual aims to prepare Hubcoaches and Networkleaders for the task to monitor and evaluate their activities.
- a checklist presents guiding questions for monitoring the organisation of a demonstration event, from the very start of identifying its objective to the reflection on its impact
- an exit poll could be used to collect feedback from farmers and other visitors of a demo event
- a team reflection tool to evaluate at Hub level if realised results are in line with objectives and ambitions
- a journal has been developed to document the evaluation results in a structured way.

Besides these tools, WP5 supported the development of a M&E strategy and tools for Cross visits in cooperation with WP2.

The tools have been discussed during a project meeting in November 26-27 in The Hague. Concepts of the tools and minutes are available at the collaborative workspace.

In December 2018 some improvements of the tools have been made based on the project meeting.

Beginning of January some small changes will be expected related to the need for integration with the other WP's.
