# MS11: Platform is online and fully operational

### **Document Summary**

Deliverable Title: Platform is online and fully operational

Version: 1

Deliverable Lead: BIOS

Related Work package: WP4

Author(s): Milica Trajković, Grigoris Chatzikostas

Contributor(s): -

Communication level:

• CO Confidential, only for members of the consortium (including the Commission Services)

Project Number:7727053

Grant Agreement Number: 7727053

Programme: NEFERTITI

Start date of Project: January, 1, 2018

Duration: 4 years

Project coordinator: Adrien Guichaoua

### Abstract

NEFERTITI Programme promotes the creation of interactive thematic networks related to the agriculture sector to promote knowledge, learning and the adoption of innovative techniques through the exchange of information between different actors and live demonstrations.

**1** Means of verification

## Means of verification

NEFERTITI platform was developed based on:

- description in the project DoA;
- requirements gathered during the first three months of the project (documented in D4.1) and
- requirements gathered on project annual meeting (June 2018).

The platform can be reached on this link.

The content of the platform is dedicated to farmers and innovation actors, with special attention on demonstration activities. Each Network (10) has its own page with description, promotional video and all hubs that belong to particular Network (picture below):

	Grassland and Carbon Sequestration

Platform content is open, with no registration required.

One segment of the platform is intended to consortia members (log-in required), for facilitation of interactive project communication. Additionally, partners will be able to monitor project progress (based on pre-defined KPIs) in real time.
